EXPERIENCE

Lead Development Representative
Verse.io 07/2020 - 12/2020

Achievements/Tasks

- Managed a CRM system and responded to over 100 calls and emails per day with a high level of professionalism.
- Conducted outbound outreach to introduce Verse in current verticals, including mortgage, real estate, solar energy, and home services in addition to new verticals such as healthcare, education, homebuilding, and SaaS.
- Qualified prospects based on buying criteria and partnership potential and explored how the organizations' service can help their business succeed.
- Scheduled qualified appointments for the business development team to conduct discovery calls and demonstrations for businesses to learn more about the software.
